

RAJEET MANGRATI

Software Development Engineer in Test

Phone : +977-9860596632 • Email : mangratirajit@gmail.com • Address : Kathmandu, Nepal

SUMMARY

A professional QA with over 4.5+ years of experience in both manual and automation testing. I specialize in developing effective test strategies and frameworks that ensure high-quality software delivery. My focus is on early issue identification and enhancing test efficiency, enabling the delivery of reliable, top-notch products.

WORK EXPERIENCE

Monotype Imaging

May 2024 - Present

- Worked on automating data validation and integrated tests into CI/CD pipelines to ensure accuracy and consistency with every data delta change.
- Developed and maintained robust regression test suites to validate checkout, licensing, and font preview components, significantly reducing manual QA workload.
- Contributed to documentation, including test strategy, test plans, and QA reports, enhancing cross-team transparency.
- Tested and stabilized the MyFonts.com frontend, improving functionality, UX, and platform reliability

LogicaBeans

June 2023 - April 2024

- Developed UI automation testing using Cypress and API testing with Postman, resulting in 50% reduction in regression testing time.
- Proficiently integrated Pynt, an API security testing tool, into CI/CD pipeline to strengthen API security testing tool.

Feb 2021 - May 2023

- Conducted automated regression testing using maestro automation tool, enhancing product stability.
- Conducted regression testing and load testing, reported to the project lead before UAT, ensuring product readiness.

EKbana Solutions

- Led automation efforts across multiple projects, successfully implementing test automation and integrating with Jenkins CI/CD, demonstrating strong leadership and commitment to quality.
 - Provided mentorship to four junior QA engineers, fostering a culture of knowledge sharing and skill development.
 - Collaborated with international clients from the United States and Japan to ensure the delivery of high-quality software.
 - Conducted load testing using JMeter to evaluate the performance of applications across three projects.
-

SKILLS

Manual Skills:

Test Case Design | Test Plan Development | Exploratory Testing | Regression Testing
User Acceptance Testing Documentation and Reporting | Communication Skills | Attention to
Details | Defect Tracking and Reporting

Technical Skills:

Javascript | Cypress | Playwright | Postman | Jenkins | Sitespeed.io | Python | Docker | AWS

EDUCATION

Masters of Business Administration

Sep 2024 - Present

Lincoln International College

- Enrolled in a Master of Business Administration (MBA) program to further enhance my leadership, strategic thinking, and business management skills.

Bachelor in Information Management

Aug 2015 - Sep 2019

Kist College

- Studying at KIST College provided me with the opportunity to enhance my technical skills and deepen my understanding of my chosen field. The rigorous academic environment helped me develop critical thinking and ethical decision-making abilities, preparing me to tackle real-world challenges with confidence.
